

Leafy Cross Purificator Embroidery

The chain stitch or stem stitch linework (in black) is stitched first throughout, continuing along the outside perimeter of the satin filled areas to create an edge that the satin stitches will be fitted over. This visually evens out the edges, and creates light padding in the satin filled petals and leaves. The cross is filled with 'Seed Stitch.'

Printed at 100%, the linework to the right is at size for a standard purificator. Trace it on your linen and dig in. A shot of spray starch should help with any puckering.
